Eight and Eight ( 8 wins, & 8 losses) records in Part A of the WIN/LOSS RECORD AND SCORE TRACKING SHEET. **AMOUNT TO BE WON OR SPLIT ( 0 )**

There are multiple chances and ways to win with a **(CATCH 22)**.

A – Each quarter is worth \$120.00. Anyone going 4 & 0 or 0 & 4 in any of their 4 quarters will qualify to divide equally into the monies for that respective quarter.

B – If a quarter goes by with no winners then the previous quarter \$120 will add to the next quarter making it \$240.

C – If at the end of the 4<sup>th</sup> quarter there are monies not won, then everyone with a **ending 8 & 8 season record** in Part A of the WIN/LOSS Record and Score Tracking Sheet will qualify to split the monies equally.

D – Now for the **CATCH 22**

Anyone who post a perfect season either a 16 & 0, a 0 & 16 record or wins in all four quarters with a mix of 4 wins or 4 losses in any order with their assigned teams will win or split in case of identical records the **TOTAL** \$480.00 and eliminate any winners that qualified in A, B, or C.

Tie Breaker Rule – In case of a tie game at the end of overtime, the Highest Alphabetical Standing Team will be given the win and the other team the loss.

Example – Saints 20 – Seahawks 20 at the end of overtime.  
Seahawks will be given the win and the Saints will be given the loss.
