8 & 8 (8 wins & 8 losses) records in Part A of the WIN/LOSS RECORD AND SCORE TRACK SH AMOUNT TO BE WON OR SPLIT (?????????)

Eight Wins	Eight Losses

There are multiple chances and ways to win with a **(CATCH 22)**.

A - Each quarter is worth \$120.00. Anyone going 4 & 0 or 0 & 4 in any of their 4 quarters will qualify to divide equally into the monies for that respective quarter

B - If a quarter goes by with no winners then the previous quarter of \$120 will add to the next quarter making it \$240.

C - If at the end of the 4th quarter there are monies not won, then everyone with an ending 8 & 8 season record in Part A of the WIN/LOSS Record and Score Tracking Sheet will qualify to split the remaining monies.

D - NOW FOR THE CATCH 22

Anyone who posts a perfect season either a 16 & 0 or a 0 & 16 or wins in all four quarters with a mix of 4 wins or 4 losses in any order with their assigned teams will win or split in the case of identical records the **TOTAL** \$480 and eliminate any winners that qualified in A, B, or C

Tie Breaker Rule - In case of a tie at the end of overtime, the Highest Alphabetical Standing Team. will be given the win and the other team the loss.

Example - Saints 20 - Seahawks 20 at the end of overtime. Seahawks the win and the Saints the loss
